About This Content

We heard you wanted more monsters. We got more monsters! More leaders? We got you covered. Circle Empires: Apex Monsters! adds 12 new monsters to hunt down, 6 new leaders to play as and 21 new units to recruit or defeat.

New creatures make their way onto the circular battlefield. Hunt down a feared unicorn named Über, as you recruit wax monsters that spawn wax towers that shoot wax at your enemies (we could wax lyrical all day). Or recruit your own horny unicorns and fight Enormy the Enormous; a really dumb but (for some reason) widely revered Barbarian.

Yeah, it's all pretty weird, and there's a lot more to discover. Recruit brand new units to fight by your side like crossbowmen, infested queens, black dragons, white dragons and assassin warriors. All Apex Monsters! units can be used across all game modes with this DLC package installed.

Key Features

- 12 new monsters to hunt down
- 21 new units (including unit classes)

Amazing point and click adventure game, everything has been done with care to make you feel part of the story a few glitches but none that are game breaking, have now completed with only a few achievements left. A must buy 10/10. So bad and empty ! No subtitles (while advertized as subtitled), no content, no more than a few minutes length, 3 choices as the full gameplay (one being the option to skip the english-voiced not-subtitled intro).

You buy it because you want to try some original indie thing, you refund it because you feel cheated by some so-called dev who doesn't know shame. Even for a low price, I don't need to buy poo.. Weather Lord is the first game the Weather Lord series. It is much different than the sequels, feels more like babies first time management game. It's far too simple and quite boring for an adult, but probably would be great for kids. It's a good thing that I played some of the later games in the series before playing this, otherwise I would have missed out on some really games if I had played this first.. I like the game its fun, but its not worth a full price, they removed SO MUCH from the previously games , i felt like i got less .. Shallow gameplay, no reason for multiplayer, RNG progression.. Very basic game, gets repetitive real fast!

5/10. Have to say that this is the first soundtrack I bought AFTER playing through the whole game(I usually just get with the sale package when the game goes on sale). An absolutely stunning soundtrack. You can really relate each song to the area in game, although even without playing the game itself I can really recommend this wavy relaxing goodness :D. Sherlock Holmes Nemesis, in my opinion is one of the best frogwares sherlock games out there, not because of a gripping story or incredible graphics but because the puzzles are so goddamn hard. you litterally have to be sherlock holmes to solve alot of them. Which is the very reason why I think alot of people would disagree and say it is one of the worst. But if your considering this game make note its not for someone whos looking for some easy casual puzzles (which are great too). Its an OK game I think I only paid \u00a32.00 for it in a Steam sale so for this price I would say yeah I recommend it as it has no bugs or issues BUT.

There are no Steam achievements I played the whole game in one sitting so I cant say about save game but I dont think there was and no jump scares.

I can only recommend this game in a Steam sale for the price I paid I will be giving this game a thumbs up as I mentioned there are no bugs or any issues and I have played worse games than this.. hello everyone. it pains me to write this review as i LOVED the pizza connection series games . with that being said the game is Very broken. i was expecting some things to be updated but they removed alot of features that the first two had and that made the game great. in PC3 no more robbing banks or having a headquarters and criminals can only be spawned from resturants and no matter which one you have or hire. a single cop always beats them no matter what as for the game play. its very Bland . i may have played it for less than 7 hours but as far i have seen you cannot train your Staff any further than what you hire them at. this game had alot of promise but Falled short in its removed features and bland gameplay.

heres hoping they learn what not to do and maybe fire there current dev team as it was a mistake and should've never seen the light of day.

I love this game, very chill. Only thing is i "finished" it in about 30 hours actively playing. Looking forward to next update..
@developers : you shouldn't do so much drugs guys. But seriously, I loved it. It can use a bit more polish here and there, and there are some weird bugs, like when you leave the track and jump into the surroundings, but it's entertaining and weird and different and funny and sometimes very weird and very different. I'm not sure if you're going to further develop this (I hope so), because I like the idea of a warped, dark, crazy version of Lucky's Tale. Btw, I really loved the music.. I liked this game. I spent months playing, i managed to get 100 sins, from saving over time! and then the upgrade minions is broken, so it took my sins and then lost all my sins and then when i clicked the minus and thats broke as well... I can not reccomend this game, you also get stuck at level 150 and its near impossible to get any further.. Heckabomb is a funny game, and contains all the good elements of the arcade games of the genre.

The visuals are not impressive, but they are nice. And the soundtrack is really nice.
But that's just it, the game boils down to two types of levels. Collect resources from asteroids and fight against enemy waves.

Unfortunately become annoying and repetitive, without great sense of progression or continuity.. Verry fun sports outfits.. Bit of a scam, remember these devs and avoid any of there crap in the future.

Where is this COOP mode they promised?. It's good quality and fun to play.. Meh ... I was expecting something like Firefighter or Police Focres 2, but it's completely different, i don't konw how to diefine this ... It's not a bad game, but not even good great game but it lacks alot of content and the RNG is crazy in this game. Very Fun game
